

65 m or 213.2 ft.

Northing (meters)

~ 10/5

All these removed

1 acre = 43,560 sf.
5 m = 16.4 ft.

None of these removed

Easting (meters)

150 m or 492 ft

Magnetic signal associated with marked burials

Possible unmarked burial (relatively high probability)

Signal clutter associated metal debris (trash) exists in these regions
This clutter can mask magnetic signal from human burials

Possible unmarked burial (relatively low probability)

Figure 4. A detailed view of the magnetic field gradient data *average*, with interpretations.

104,844.4 SF or 2.41 acres

Cemetery
